

Part-Time Employment for Students

Our Firm

- Our firm's services include: cash flow planning, strategic tax planning, litigation & fraud services, business valuation, estate planning, bookkeeping, and other advisory services.
- We work with clients on a national level.
- We're a hybrid team. Team members can work remotely.

Who We Are

- Collaborative Team
- Company culture built on life-long learning. Unlimited opportunity for growth.
- We have fun. We get excited about numbers and helping people.
- Team members are driven to challenge themselves & deepen their expertise.

Student Program

Our professional team guides you through real world experience and training that align with the subjects you learn in school.

1. You touch clients' lives in many ways. Because of this, we expect a high level of accountability and responsibility from you.
2. You execute projects start to finish, experiencing a variety of hands-on work you won't find at larger firms.
3. You are trained up into working directly with clients.
4. You must have a willingness to learn and a collaborative team mentality.

Accounting students are hired as part-time staff accountants.

- The role fulfills an internship requirement; however, the position is a job.
- We expect our students to continue working with us beyond one semester or internship credit.
- Hours: Flexible, minimum 15 hours per week. We work with you to integrate your employment and school schedules.

We don't expect you to know everything about accounting (you're still in school!). We teach you what you do not know. Having a learning mindset is key to being successful at our firm.

Part-time employment opportunities for students are ongoing and we accept applications year-round. Send a resume and letter of interest to Jaimie Klawitter at jaimie.klawitter@icpaf.com.
